

THE PORT AUTHORITY OF NY & NJ

Tunnels, Bridges and Terminals Department E-Z Pass Programs

The Tunnels, Bridges & Terminals Department operates four bridges, two tunnels, a bus terminal and a bus station and collects over 1.3 billion in revenues each year. This is an exciting time to join Tunnels, Bridges and Terminals (TB&T) as the department embarks on several projects that will re-shape transportation in the region including, the raising of the Bayonne Bridge, rebuilding the Goethals Bridge and the implementation of an all-electronic tolls system.

JOB TITLE: Manager, Toll Collection Technology Services

LOCATION: World Trade Center, New York City

RESPONSIBILITIES:

Reporting to the General Manager, E-Z Pass Programs, the selected candidate will be responsible for providing technical services for the Toll Collection System and for E-Z Pass Plus Airport Parking operations, as well as for managing the operation and maintenance of the Toll Collection System (ITCS) at the Authority's bridge and tunnel crossings, which collects annual revenue in excess of \$1.8 billion. Responsibilities include:

- Serve as the technical expert for all electronic toll-related and parking-related activities
- Oversee and administer the \$5 million Toll System Maintenance Contract, along with the Airport Central Host System Administration
- Supervise technical staff to ensure effective daily monitoring of the Toll System
- Monitor Revenue Reconciliation with the Customer Service Center (CSC)

QUALIFICATIONS:

- Bachelor's Degree in Engineering, Technology Systems, or related fields from an accredited college or university
- A minimum of 5 years of experience in an engineering or IT environment
- A minimum of 3 years of experience in toll collection
- Must possess a valid Driver's License

DESIRABLE:

The ideal candidate will present the following qualifications profile:

- Knowledge and understanding of systems and equipment, with a minimum of 3 years of experience in planning, design, implementation and on-going functioning of in-lane electronic toll collection equipment and systems
- Three years of experience managing a maintenance program including oversight and contract management for corrective, preventive and emergency maintenance
- Two years of experience managing technical staff
- Three years of experience in managing complex technical projects successfully, and demonstrated experience in delivering projects within scope, schedule and budget
- Five years of experience in contract management in a multi-disciplinary program environment
