

Arthur T. O'Connor, Ph.D, P.E.
U.S. Department of Transportation
Federal Highway Administration
New York City Metropolitan Office

Arthur O'Connor is the Sr. ITS/Operations Engineer (Downstate) in the USDOT/FHWA New York City Metropolitan Office. He is responsible and provides overall leadership for all facets of the federally funded ITS program throughout the five boroughs of New York City and Long Island, including TRANSCOM.

Art has been with the USDOT/FHWA for approximately 27 years. He co-established the New York City Metropolitan Office in late 1996/early 1997 and has spent the last 18 years working very closely with all downstate partner agencies in the advancement of numerous ITS and operations programs and initiatives. He spent the previous 9 years in the USDOT/FHWA Boston (Cambridge) office as a Civil (highway) Engineer in a variety of traffic engineering, safety, and ITS related positions.

Art holds a Ph.D in Civil Engineering and a Master of Science in Transportation Planning & Engineering from the New York University Polytechnic School of Engineering, a Master in Business Administration from Suffolk University (Boston, MA), and a Bachelor of Science in Civil Engineering from Merrimack College (North Andover, MA). He is a Registered Professional Engineer in Connecticut and New Jersey.
