

Raymundo Martinez, P.E.
Senior Associate
TransCore

Raymundo Martinez is a Senior Associate with TransCore, specializing in intelligent transportation systems (ITS). Located in the New York City office, he supports ITS design, implementation, integration, testing and maintenance, and operations.

Raymundo has more than 35 years of experience working with transportation consulting firms. Throughout his career, he has worked on major intelligent transportation systems for the New York City Department of Transportation, New York State Department of Transportation, Metropolitan Transportation Authority's Bridges and Tunnels, the New York Thruway Authority and the Lower Manhattan Development Corporation.

Raymundo is a Licensed Professional Engineer in New York, New Jersey, Pennsylvania and Maryland. He earned both Bachelor and Master of Science degrees in Electrical Engineering from Columbia University's School of Engineering.
