

January 19, 2024

Dear ITS-NY Members, Colleagues and Friends!

ITS-NY invites interested parties to submit abstracts in support of the 2024 ITS-NY Annual Meeting and Technology Exhibition to be held June 13th - 14th in Saratoga Springs, NY. ITS-NY seeks abstracts on all facets of Intelligent Transportation Systems and technologies.

Abstracts should emphasize how Intelligent Transportation Systems and related technologies assist transportation professionals plan, design, build, operate, maintain, and implement safe, efficient, and environmentally responsible systems and technologies throughout the transportation network.

ITS-NY will not consider any submissions which aim at marketing a product or service.

The following are example topic areas in which members have shown an interest (in no particular order). The focus should be on ITS-related aspects of these topic areas. Topic areas not listed below will still be considered by the Planning Committee:

- *Digital Infrastructure*
- *Emerging Technologies/Smart Cities*
- *Complete Streets*
- *Cybersecurity*
- *Data Analytics*
- *Crowdsourcing*
- *Congestion Pricing*
- *Mega Projects (e.g., PA Bus Terminal, The Gateway Program, JFK Redevelopment...)*
- *Safety*
- *ITS4US*
- *Urban & Rural Transit*
- *Integrated & Coordinated Signalized Intersection Management*
- *Diversity, Equity and Inclusion (DEI)*
- *Electric Vehicles/Electrification*
- *Connected and Automated Vehicles*
- *Connectivity (C-V2X)*
- *Metropolitan Planning Organizations*
- *Grant/Funding Opportunities*
- *Micro mobility*
- *Traffic Incident Management*
- *Video Analytics*
- *Case Studies/Lessons Learned*
- *Workzone Safety*
- *VMS Practices*
- *TSMO*

- *ATDM/Hard Shoulder Running & Other Capacity Enhancing Techniques*
- *Airport Construction Management*
- *Systems Engineering*
- *Futuristic Technologies/Research*
- *Climate Change Impacts & Mitigation*
- *Asset management*
- *Performance Management*
- *TMC Management*
- *Regional ITS Architecture Updates*
- *International ITS applications and advances*
- *Artificial Intelligence applications in ITS*
- *GIS use in Traffic Management*
- *Smart Work Zones*
- *Systems Engineering for ITS*
- *Data Management*
- *Electric Vehicles*
- *Agency coordination to maximize ITS benefits*
- *ITS planning and policy*
- *Special Event Management*
- *Emergency Management*

The deadline to submit abstracts is **Friday, March 8, 2024**. Please submit by emailing to administrator@its-ny.org with "ITS-NY2024Abstract" in the subject line. You may also download the 2024 Abstract Submission Form at www.its-ny.org.

We are hopeful a number of abstracts will be selected by the Planning Committee for panel presentations or round table discussions and incorporated into the final program agenda.
