

Jennifer Bates, P.E., LEED AP, Env Sp

Jennifer has been a traffic engineer with the Port Authority of NY & NJ for over 21 years, joining the agency in 1998. Over the years Jennifer has overseen and worked on major traffic planning, design, safety, and operations initiatives and projects at all PA facilities. She is currently the Principal Engineer for the Traffic Engineering Transportation Technologies group which is responsible for ITS planning, design, and construction support services to improve operational efficiency and help optimize the use of available transportation system network capacity. She is also responsible for managing the agency's ITS program to help realize the agency's ITS Strategic Plan mission through the use of transportation technologies.
